

"Fifty years ago, when Golden Wedding Whiskey was young."

ABOUT the time the exciting game of polo was introduced into England and Canada, by the Hindoo princes, choice, old,

Golden Wedding
Bottled in Bond WHISKEY

was reaping the first fruits of its great fame.

Matured in the wood and sun-ripened under strict government supervision, Golden Wedding is a straight whiskey of absolute purity.

Think how, with a flavor which is the wonder and delight of all good judges, it has been growing in public favor for generations.

But there's a reason. It is
"Made Differently."

CHARGES HUSBAND THREW HER OUT OF THE HOUSE

**Mayme B. Damfolf Suing for
Divorce Charges Extreme
Cruelty and Theft of Her
Child.**

Attorney T. N. Wilkerson today filed suit for Mrs. Mayme B. Damfolf against her husband, Theodore Damfolf, asking divorce and the custody of their infant son, and at the same time asking an injunction to restrain Damfolf from taking the child out of the jurisdiction of the court, and to require him to pay her suit money and attorney during the pendency of the suit.

The court issued a temporary injunction ordering the things prayed for and set February 25th as the date for a hearing when Damfolf will have an opportunity to show cause.

Mrs. Damfolf in her complaint sets forth that the couple were married in Denver on February 22, 1912, and that shortly thereafter the de-

fendant began a course of cruel and inhuman treatment, coupled with abusive and degrading language, culminating on one occasion in his throwing her out of the house. Later he is alleged to have stolen their infant son.

In November, 1912, the complaint states, Damfolf had come to Albuquerque and induced his wife to join him here. She brought with her \$500 which she says he invested in a restaurant, which they have been engaged in running, and that soon after she came he resumed his alleged abuse and violent language and that on Friday 15th last she was unable to stand his abuse longer and was forced to take the child and leave. She professes to fear that he will seek to take the child and get out of the state.

Ogle Wins Suit Against County.
The court today gave judgment in the case of A. D. Ogle against the board of county commissioners, in favor of the plaintiff for the full amount sued for. Ogle, who was formerly county engineer, was employed by the county commissioners to supervise the survey of the county being made by John L. Zimmerman. A small part of the bill for such services was allowed and payment refused on the balance.

In the case of Robert E. Delts vs. the unknown heirs of Diego Montoya, et al., a suit to quiet title, the court gave judgment for the plaintiff, O. J. Durand, today filed suit against Joe Rice to collect on a note for \$25.12.

Judge Reynolds will leave tonight

NEW ORPHANAGE TO BE READY FOR USE SOON

St. Anthony's orphanage, north of this city near the Indian school, which has been under construction for the past several months, is rapidly approaching completion, and is a most imposing building. It is expected to be ready for occupancy in about two months' time or less. It occupies a splendid site on "Bourgeois Place" and is one of the finest buildings in the state.

The Sisters of St. Francis are very much encouraged at the support which has been given the enterprise and bespeak a continuation of this support. The matter of the orphanage and its maintenance is expected to be dealt with at some length by Archbishop J. R. Plavay in his annual pastoral letter which will be read to the clergy and laity of the diocese next Sunday morning.

The young men's and young ladies' societies of the Church of the Immaculate Conception will give an entertainment next Monday night at 8 o'clock at St. Mary's hall. A most artistic program has been prepared.

To Advise Uncle Sam

E. H. GARY.

E. H. Gary, chairman of the board of directors of the United States Steel corporation, one of the heads of banks and trusts, who will be called to give advice to the government upon President Wilson's "trade reform" bills which have been introduced in the house.

Accept no substitute. If your druggist cannot supply you, send 25c or 50c to the MUSTEROLE Company, Cleveland, Ohio, and we will mail you a jar, postage prepaid.

Dr. J. J. Gordon, a well known Detroit Physician says, "Musterole is invaluable in my practice and my home."

DOMESTIC SCIENCE AT WOMAN'S CLUB

Desserts Chief Topic of Conversation, With Interesting Demonstration at Meeting Tomorrow.

Dessert-making demonstrations will be a feature of the regular session of the Woman's club tomorrow afternoon, under the auspices of the Domestic Science department, with Mrs. W. W. Strong, leader, assisted by Mrs. F. E. Toll, Mrs. H. O. Strong and Mrs. Bittner. "My favorite dessert" will be the roll call response. Mrs. Stromquist and Mrs. Tom Hughes will give readings.

A meeting of the board of managers will be held at 2:30.

The Markets

Wall Street

(By Licensed Wire to Evening Herald.)
New York, Feb. 19.—A strong undertone characterized the morning trading but the volume of business was small and advances did not reach striking proportions. Assurances from Washington that the railroad freight rate case would be decided before the summer holidays put the railroad shares on a stronger basis. Short covering and a moderate amount of outside buying operated in favor of higher prices.

Movements were limited to fractions in most cases, although some of the specialties made more extended advances. Bonds were steady.

Foreign operations took advantage of the improvement in the market to sell about 5,000 shares.

The market was also affected by the weakness of some industrial stocks. Prices worked back to about where they closed yesterday, or below.

Best sugar declined 1-2 and Case preferred 4 points.

The market closed steady. Prices drifted idly in the late dealings and the level was not essentially changed. Rock Island reserve were offered down steadily. The preferred established a new low figure at 63-8.

The more important stocks closed as follows:

Amalgamated, 75 3-4.
Swar, 106 1-2 bid.
Atchafson, 97 5-8.
Reading, 167 1-2.
Southern Pacific, 94 1-8.
Union Pacific, 102 1-4.
Steel, 68.
Steel preferred, 110 1-4.

St. Louis Spelter.
St. Louis, Feb. 19.—Lead nominal, \$2.99; spelter dull, \$5.20.

Chicago Board of Trade.
Chicago, Feb. 19.—Declining prices at Liverpool had a bearish effect today on the wheat market here, although the weakness abroad was due largely to flattering reports from this side regarding the condition of the winter crop.

The close was easy at a shade lower to a like amount up, compared with last night.

Kansas dispatches telling of danger from a freeze after a thaw acted as a steady influence. Prices started a move to the lower and then rallied but afterward fell again.

The close, however, was unchanged, 1-8c to 1-4c under last night.

In corn the majority of traders were inclined to press the selling side. Attention centered a good deal on the lightness of the shipping demand. The market, which opened 1-16c to 3-4c down, reacted a little, though not in a lasting manner.

Oats eased off with other grain. What support there was value only after a decline.

Heaviness due to a setback of prices at the yards formed the rule in provisions. The market averaged from a shade to 3 cents lower.

Wheat—May, 94 1-2; July, 89 1-4.
Corn—May, 65 3-4; July, 65 1-2.
Oats—May, 29 7-8; July, 30 5-8.

PARIS, IN WAR, WOULD BE BREADLESS WITHIN FOUR DAYS

Paris, Feb. 19.—In case of war the city of Paris would probably find itself without bread within four days. This alarm has been sounded by the municipal council after a thorough study of the possibilities and the announcement has resulted in a popular demand for measures to assure an ample food supply in case of a conflict.

The minister of war and the under-secretary of state have decided to take up the whole question with the municipal council for further study with an endeavor to solve the problem.

Military authorities point out that during the first few weeks of mobilization in case of war, all railroad trains and lines would be reserved exclusively for military trains and no supplies for the civil population could be transported. It has been proposed among other things to buy 10,000 tons of flour to be kept in a public warehouse and to be used as necessary arises. It is suggested that the state contribute immediately \$20,000 as a first payment toward this and the municipality \$40,000. While the problem of a sufficient supply of flour and wheat is considered most important, the authorities are also planning to conserve stocks of other necessary things, including wool, coal and oil.

"If," says Commander Driant, a well known retired army official, "an order of mobilization were given on Thursday, Paris would have neither bread, milk nor meat at the beginning of next week. Another important question is that of the water supply. I would ask what Parisians would drink were Paris invested and cut off from its water supply. This is a phase of the problem that the commission which has been studying the subject might consider thoroughly. We have arrived at a time when all the problems of national defense must be considered without delay."

TICKET AGENT 25 YEARS; MAYOR FOR 10 YEARS, RECORD

John Heaton of Plymouth, Ill., has been a guest here for several days past of Mr. and Mrs. J. H. Peak, on West Central avenue, leaving this morning for his home. Mr. Heaton has been enjoying an extended vacation trip to points in California and Arizona. He is a veteran railroad man, having been ticket agent for the Burlington route in his home town for the past twenty-five years. Mr. Heaton is, moreover, mayor of his town and has the distinction of having held the office for ten years. He was very favorably impressed with Albuquerque.

after March 1st by his sister, Miss Charlotte Ellis and brother Paul Ellis and all three will likely make their home in this city in the future.

William Blackwell, cattle ranchman in the Mangamon is a business visitor in the city today.

Alcohol and sugar, one death-dealing, the other life-giving, are the same in their constituent elements, but are different in the quantities and proportions of those elements. So wrong living and right living may

have the same simple elements, but differ as far as the poles in the proportion and combination of those elements. So began the lesson of last night at the Gold and Broadway Church of Christ, where J. Mad. Williams is preaching nightly. Good audiences are being reported.

Baldie Nielsen of Albuquerque, and Miss Linnie Marsh, of Sanbury, Mo., married in Kansas City, Mo., on February 7, arrived in the city last night to make their home here.
